### **DETAILED ACTION**

1. This application contains claims 1-21 and 28-45 drawn to an invention nonelected with traverse in Paper No. 10. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

### ***Drawings***

2. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on April 30, 2003 have been approved.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

4. Claim 46 is rejected under 35 U.S.C. 102(e) as being anticipated by the Baugh et al patent publications.

The applied reference may have a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

See Fig. 1 of either publication.

5. Claim 46 is rejected under 35 U.S.C. 102(b) as being anticipated by the patent to Gjessing et al ('868).

See Fig. 1.

#### ***Allowable Subject Matter***

6. Claims 22-27 are allowed.

#### ***Response to Arguments***

7. Applicant's arguments filed April 30, 2003 have been fully considered but they are not persuasive.

With respect to the argument that the Baugh et al patent publications are disqualified as prior art, applicant is reminded that to the statement as to common assignment must include a statement that the inventions were owned by or subject to an assignment to, the same person(s), **at the time the invention was made**. There is

no such statement. Further, common assignee and common entity are not the same. In the instant case, there may be a common assignee but the common entity is different. Therefore, the commonly assigned publications, as assumed, are not disqualified as prior art since the common entity is different.

With respect to applicant's argument that the Gjessing et al patent does not "provide an estimate of a delay of scattered signal components within said received data", a review of claim 46 does not include such recitation and thus, the argument is not commensurate in scope with the instant claim.

### ***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
